

Avantco Ice Machines

Item #: 194MCH430A Project: _____

Qty: _____ Date: _____ Approval: _____

Avantco Ice MC-H-430-A 30" Air Cooled Modular Half Cube Ice Machine - 400 lb.

Item #194MCH430A

Technical Data

Width	30 Inches
Depth	24 3/8 Inches
Height	22 3/8 Inches
Phase	1 Phase
Voltage	115 Volts
24 Hour Ice Yield	400 Pounds
Color	Silver
Condenser Type	Air Cooled
Ice Type	Half Size Cubes
Installation Type	Freestanding

Features

- Makes up to 400 lb. of half cube ice per day
- Durable 304 stainless steel exterior with polyethylene interior
- Digital controller allows user to quickly identify issues
- Removable air filter allows for quick cleaning
- Features pre-drilled OceanLoch mounting holes

Certifications

ETL Sanitation

ETL US & Canada

3/4" Water Connection

5-15P

Technical Data

Interior Material	Polyethylene
Material	Stainless Steel
Plug Type	NEMA 5-15P
Refrigerant Type	R-290
Type	Ice Machines

Notes & Details

Make sure you've always got plenty of fresh ice on hand with the Avantco Ice MC-H-430-A 30" air cooled modular half cube ice machine! Capable of producing up to 400 lb. of half cube ice per day, you'll always have plenty of ice to serve on demand at your restaurant, bar, or cafe. For ease of maintenance, a built in diagnostic system will identify problems that your ice machine may be having and will display the issue on the digital controller so it can be repaired accordingly. This easy-to-use controller can also be used to monitor the current stage of ice production that your machine is in. It allows you to adjust the bridge thickness up or down to maximize your harvest into individual cubes of ice, rather than full sheets. It also initiates the cleaning cycle and displays what stage of the cycle you're in.

Constructed of durable type 304 stainless steel with a polyethylene interior, this unit is built to last in the busiest commercial environments. A nickel plated evaporator and removable air filter make for quick and simple cleaning and maintenance. This ice machine also comes with pre-drilled holes on the back of the unit to mount your OceanLoch water filter (sold separately) to the machine to ensure you are serving the cleanest and freshest ice possible. Designed for side-breathing and rear exhaust, you can avoid hot air being blown outward into your kitchen or service area. This unit requires a 115V electrical connection for operation.
